

# IRON WOODS<sup>®</sup>

HARDWOOD DECKING & SIDING

## PREMIUM GARAPA

Iron Woods Garapa is a durable, well performing alternative to Ipe. A more affordable option than Ipe, and often chosen by architects, builders, and homeowners for its attractive, naturally rich honey-golden brown color. Garapa's strength, durability, fine grain, and unparalleled performance put it in the forefront of deck designer's minds.

Iron Woods Garapa slightly darkens upon exposure to ultraviolet light, resulting in a golden-brown hue similar to natural teak wood, eventually aging to a silver patina if left natural.

Similar to other Iron Woods hardwoods, it can be brought back to its original beauty with regular cleaning and a coat of Penofin exotic hardwood oil applied annually, or as desired.

### SPECIFICATIONS

<b>PREMIUM GRADE</b>	100% HEARTWOOD 100% CLEAR, no visible defects or sapwood streaks Graded on both faces and edges of boards
<b>DRYING</b>	All available dimensions are kiln dried and pre-stabilized  Kiln dried decking is superior in appearance, stability, surface quality and finish penetration.
<b>COLOR</b>	Light sensitive Garapa starts as a warm pale yellow to honey golden brown adjusting quickly upon UV exposure to a natural teak color range  Garapa weathers to a silver gray if left unfinished
<b>GRAIN</b>	Mixed fine to slightly coarse grain
<b>FINISHING</b>	Regular cleaning brightening and refinishing with exotic hardwood oil to maintain or restore its natural color
<b>USES</b>	Exterior architectural millwork included but not limited to decking, cladding, rail, posts, trim, furniture, boat building
