THE IRON WOODS® SYSTEM...

FOR A CONTEMPORARY FACADE...SIDING INSTALLATION WITH NO VISIBLE FASTENERS

The perfect complement to the natural beauty of our Iron Woods premium grade exterior cladding profiles is our unique Vanish Clip System which brings a new found elegance to the art of both commercial and residential building envelopes and interior façade design and construction.

THE RAINSCREEN CONCEPT IS NOT NEW.

The concept of rainscreen or ventilated and back drained wall and soffit systems is not new. As far back as the 15th century the impact of moisture condensation behind exterior wall cladding on material performance and finishes has been well understood. Back-ventilated cladding and soffit systems allow moisture to evaporate more rapidly than closed systems improving the service life of building envelopes in environments that experience high winds and driven rain.

IRON WOODS CLADDING

Traditional closed cladding profiles like T&G, WP4, Ship lap and custom profiles are available by special order in the full range of Iron Woods species.
