

IRON WOODS®

HARDWOOD DECKING & SIDING

PREMIUM GARAPA

Iron Woods Garapa is a durable, well performing alternative to Ipe. A more affordable option than Ipe, and often chosen by architects, builders, and homeowners for its attractive, naturally rich honey-golden brown color. Garapa's strength, durability, fine grain, and unparalleled performance put it in the forefront of deck designer's minds.

Iron Woods Garapa slightly darkens upon exposure to ultraviolet light, resulting in a golden-brown hue similar to natural teak wood, eventually aging to a silver patina if left natural.

Similar to other Iron Woods hardwoods, it can be brought back to its original beauty with regular cleaning and a coat of Penofin exotic hardwood oil applied annually, or as desired.

SPECIFICATIONS

PREMIUM GRADE	100% HEARTWOOD 100% CLEAR, no visible defects or sapwood streaks Graded on both faces and edges of boards
DRYING	All available dimensions are kiln dried and pre-stabilized Kiln dried decking is superior in appearance, stability, surface quality and finish penetration.
